The New TEA ROSE "SUNRISE."

(Illustrated on first page of cover.)

The most gorgeous rose of its class yet introduced.

We have selected this rose for the cover for its unusual attractive qualities that we know will please our customers. Sunrise has taken first honors wherever shown, and this year will be grown quite extensively for the cut-flower market. In close bud form it shows a deep coppery-pink, but as the flower opens the inner side of the petals shade from a clear yellow to a deep copper, making a very pretty color effect.

The fragrance is delightful, much the same as the old rose Bon Silene. The young foliage comes a copper-bronze, and as it grows older changes to a deep green. This rose has a good future, having been thoroughly tested, and all the qualities that make a good rose are in the "Sunrise." Price, strong plants, 25 cents each; five for \$1.00; two-year-old plants, 50 cents each.

New Canna Set.

(Illustrated on second page of cover.)

Five distinct Cannas for \$1.00.

Bake of Marlborough—This is decidedly the darkest and richest flowered canna in existence, being a deep crimson-maroon with a velvety appearance. A good grower, four feet high, with very dark green foliage. Price, 25 cents each.

Perseus—A new and attractive bronze-leaved canna which is a grand addition to this family. The orchid formed flowers are an intense orange-scarlet, borne well above the foliage on a good stem. This is one of the best of the new bronze-leaved cannas. Price, 25 cents each.

Rosemawr—A grand pink variety. Rich shade of rosy pink slightly dappled with deep rose. One of the finest blooming cannas on the market, with large flowers of a good form. Dwarf habit, averaging about 3 feet. No up-to-date collection is complete without a pink canna. Price, 25 cents each.

Souv. de Antoine Crozy—Another canna we can recommend as one of the best we have today. Its color is an intense scarlet, bordered with a band of deep golden yellow. The foliage is broad and deep green. It grows about five or six feet in height, making a fine variety for the center of a bed. Price, 25 cents each.

Eldorado—The finest yellow spotted canna. Grows three to four feet high, an early and constant bloomer, fine full spikes of large beautifully formed flowers. Color rich golden-yellow dotted with bright scarlet. Price, 20 cents each.

The complete Set of New Cannas for \$1.00.

"Success Collection" of Flower Seeds.

We have illustrated here the cream of all flower seed for abundance of flowers at little expenditure of time and money. No garden is complete without Nasturtiums, Sweet Peas, Pansies and Centaureas. In the collection we include the most striking varieties of each, chosen for distinct and rich colors and good flowering qualities.

Sweet Peas—This mixture is from named varieties in crimson, deep purple, pink, lavender, pure white and striped. A packet of this mixture contains 200 seeds.

Nasturtiums—A splendid flame color, a rich crimson, a striking red and yellow and a few other choice varieties are included in this mixture. 75 to 100 seeds in a packet of this mixture.

Pansies—From the 200 seeds in this packet you will have a splendid selection in flowers from the clear light shades to the richest dark velvet. This seed is of the best German importation.

Centaurea Imperialis—The new Centaureas are very large in flower, beautifully fringed and fragrant as violets. They bloom freely on long stems, making them very choice for cutting. The flowers come in a great variety of shades of white, light blue, pink and lilac. 50 seeds in a packet of this mixture.

The "Success Collection," a large packet of each of the above, for **25c.**

"The Quintet" Rose Collection.

(Illustrated on last page of cover.)

An up-to-date collection of five new Tea Roses which are selected for their freedom of blooming, strong growth, hardiness and diversity of color.

The Complete Collection for 50 Cts.

Tea Rose, White Maman Cochet—The finest rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice roses to plant at least one of this beautiful new rose.

New Ever-Blooming Rose, Golden Gate—The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden-yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty.

Baldwin—Not only ourselves, but the general public, believe this rose to be one of the best ever-blooming roses ever introduced. Its color is quite attractive, being a soft intense carmine, with shades of cerise and sulferino, very much the color of American Beauty. It blooms very freely and will endure extremely cold weather with slight protection.

Gruss An Teplitz—A Rose that every one should have, inasmuch as it is easy to grow and a color that is always in demand. When first opened it is a rich dark crimson quickly changing to a velvety fiery red. A strong grower, blooms continuously, flowers good sized and delightfully fragrant.

Tea Rose, Sunset—A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper. Intensely beautiful and resembling in color a splendid "After-glow." It is a constant and profuse bloomer.

Plants by Express. We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as is the case when sent by mail. When the weather is sufficiently warm we pack all express orders in light, strong baskets (which we furnish free), having the tops exposed. Plants packed in this manner will carry nicely for a great distance and keep for a week or ten days in a fresh condition. Purchaser pays charges.

New Low Express Rates. We call attention to the new low express rate, which is a reduction of 20% from the regular merchandise rate at which plants have been expressed heretofore.

Plants by Mail. When plants are ordered by mail we prepay postage, delivering the plants free of all expense to any postoffice in the United States. **Orders amounting to less than 25 cents not accepted.**

Canada Customers. In ordering plants sent to Canada, please send 10 cents extra with each \$1.00 worth ordered, as the postage rate on plants to Canada is double that in the United States.

Our Terms are Cash with the Order. No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

How to Remit—Postoffice Orders. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

Express Money Orders. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

Bank Drafts. These should be drawn on New York City, and made payable to the order of McGregor Brothers.

***We will be responsible for money sent by any
of the above methods.***

Loose Money enclosed in a letter is at the risk of the sender.

Individual Checks Cannot be Received in payment for plants; neither can we accept Canada or Mexican silver or paper money.

Postage Stamps. These can be sent for fractional parts of one dollar or where postoffice order cannot be had, provided a two cent stamp extra is sent with every remittance. None but stamps in perfect order will be accepted.

***Kindly keep a copy of your order to compare
with plants received.***

References. If you have any fears that we will not perform what we promise, we refer you to the First National Bank of this city or to the Postmaster.

Address all Letters and make drafts, money orders, etc., payable to

ROSES

The New Tea Rose

Red Hermosa.

A sport from the old and much admired pink Hermosa and an exact counterpart of it in every way except the color, which is a deep cherry red. It has the same vigorous growth, beautiful foliage and fragrance as the parent, the flowers are large and deep, cup shaped, with a little curl to the edge of the petals. This will undoubtedly make a fine garden rose because of its substance and hardness, requiring a slight protection to stand zero weather. Price, 25 cents each.

Princess Alice de Monaco.

A most charming new ever-blooming Rose that must take prominence for summer bedding, as its habit is perfection, strong, upright growth, with clean, healthy foliage. The flowers are produced in wonderful profusion on long, straight shoots, are deliciously fragrant, large size, double to the center and of fine form, so that perfect flowers may be had during the hottest summer days. The coloring is exquisite, a creamy-white on the outside of the petals, with a faint rosy-blush on the edges. As the flowers expand they disclose a charming shade of opaline-pink, deepening to rich blush. Price, 15 cents each; large two-year-old plants, 35 cents each.

Grand New Rose "Liberty."

The fine hybrid tea rose that we illustrated on the front of our catalogue of last year. Its color is a warm, rich crimson scarlet and surpasses its rival, the well known Meteor, which is the nearest rose to its color. An inspection of the growing plants satisfies us as to the vigor and vitality of "Liberty." It has every evidence, too, of being a continuous bloomer. In habit the plant is erect growing, making good wood of considerable length and rigidity, and displaying a strong inclination to make a compact bush. The foliage is of moderate size, with seven roundish leaflets, very shapely and evenly serrate on the margins. Price, strong plants, 25 cents each; large two-year-old plants, 50 cents each.

The Superb New Tea Rose

"Antoine Rivoire."

A handsome new Rose of vigorous habit of growth, with large, full, Camelia-shaped flowers. Color rosy flesh on a yellow ground, shaded with a border of carmine. Flowers have been exhibited five inches in diameter. A remarkable variety of great worth. Price, 15 cents each; large two-year-old plants, 40 cents each.

The rose which has been well named the "Queen of Flowers" always has ranked first among the many families of plants we grow. We are now devoting half of our entire space to supply the wholesale and retail demand for this generally loved and appreciated flower. Springfield is well known as a center for the Rose, and is now growing and distributing more than any other city in the United States.

RED HERMOSA.

HELENA CAMBIER.

It is a new Rose of French origin, destined, we believe, to find a prominent place among the highest grade ever-blooming Roses, both for summer and winter blooming. The growth is free and vigorous, very free-blooming, flowers of splendid substance and a delightful shade of deep, rich golden-yellow. In extreme heat comes a deep amber color. The buds are full and firm, lasting a long time when cut. As the flowers expand, the center of the Rose discloses depths of golden-yellow, with light orange tints, while the older petals lessen to lemon-yellow, giving a combination of tints and tones unequalled in their beauty. Price, 10 cents each; two-year-old, 25 cents each.

The New Rose "Marquis Litta."

One of the handsomest roses of recent introduction. The buds are beautiful in form, the open flower large, full and of lasting quality. The color is an exquisite shade of carmine-crimson, very like the American Beauty. The hybrid blood in it makes the foliage large and dark green, which adds greatly to the value of the plant. From present indications Marquis Litta will become one of the most popular roses on the market. Price, 30 cents each.

The New Rose DAVID PRADEL.

Its habit is perfection, of strong, upright growth, with the cleanest and healthiest foliage that is almost impervious to disease. The flowers are produced in wonderful profusion on long, straight shoots, deliciously fragrant and of the largest size, double to the center, and of the most beautiful form. The coloring is an exquisite blending of lilac and rose, with a delicate and rich crimson center; beautiful in the bud state, but particularly so when the bud is unfolding into the open flower. Then the beauty of the glints of color and the shading is almost indescribable, and must be seen to be appreciated. Price, 15 cents each; two-year-old plants, 30 cents each.

BALDWIN.

(Illustrated on back of cover.)

(Hybrid Tea.) We believe this one of the best hardy ever-blooming Roses ever introduced. The color is unique, a very soft intense carmine crimson with deeper shades in the depth of the petals; in color much like American Beauty. The profusion of its bloom is truly marvelous, every shoot producing a flower. A grand addition to our list of red roses and equally valuable for winter forcing or summer bedding. Price, 15 cents each; two-year-old plants, 30 cents each.

New Bedding Rose GRUSS AN TEPLITZ.

(Illustrated on back of cover.)

It is a Rose for everybody, succeeding under the most ordinary conditions, and will take rank with such old-time favorites as Hermosa, Souv. de la Malmaison, Clothilde Soupert, etc. In color it is rich scarlet, shading to velvety crimson; of larger size than Hermosa; very fragrant; a free, strong grower, and the most profuse bloomer known to us, the mass of color produced being truly phenomenal, and the foliage is extremely beautiful, all the younger growth being of a bronzy plum color. Price, 15 cents each; two-year-old plants, 30 cents each.

New Rambler Rose PSYCHE.

Received an award of merit from the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose Golden Fairy. In growth and habit it much resembles the Rambler. The flowers are produced in clusters of from 8 to 35, and are 2 to 2½ inches across when expanded. The color is white suffused with salmon-rose, and pink with yellow base to the petals. A real companion to Crimson Rambler. Strong young plants, 20 cents each; two-year-old plants, 35 cents each.

The New Orleans Rose MRS. O. M. DUNN.

New. In introducing this new rose we feel sure we are offering one of the most valuable of hybrid tea climbers. It is a variety of vigorous constitution, wonderful freedom of bloom and extreme hardiness. The color is a bright rosy pink, a very desirable color; the flower extra large and double and delightfully fragrant. This new rose is a strong and rapid grower unlike the majority of new Roses, it has not been over propagated to lose its vitality. The genuine stock we control, and it is a variety well worthy of high recommendation. Nice young plants ready April 1st at 30 cents each.

CLARA WATSON.

A free-blooming Tea Rose of English origin with many distinct features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is specially valuable. The buds are very beautiful, and are supported on long stems, making it desirable for cutting. The color is salmon-pink, very difficult to describe. Will take a place among the best Roses. Price, 10 cents each; large two-year-old plants, 35 cents each.

PRINCESS VENOSA.

A strong grower, producing a long bud, flower large and beautifully formed. Color nankeen-yellow, with shadings of carmine. A most remarkable combination of colors. Price, 15 cents each; large two-year-old, 25 cents each.

New Tea Rose ENCHANTRESS.

This is beyond question one of the best of recent European introductions. We have given it a trial, and find it to be of unusual merit. It blooms with astonishing freedom, bearing its large, globular flowers in immense clusters; it is as free blooming as any Rose in our collection. The color is creamy-white, slightly tinged with buff in the center; vigorous growth; fine foliage and highly valuable both in pots for late autumn and winter blooming as well as for general planting in the open ground during summer. Price, 10 cents each; large two-year plants, 30 cents each.

ROSES—Ever-Blooming Climbing Roses.

As free-blooming as the ordinary Tea Rose, and of a strong vigorous habit. With a little protection of leaves or litter they will stand zero weather. They are exceptionally fine for southern planting.

New Climbing Rose, MRS. ROBT. PEARY, or Climbing Kaiserin Augusta Victoria.

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year. It grows to perfection outdoors, throwing up numerous shoots ten to fifteen feet high in a single season. Price, 15 cents each; large two-year plants, 30 cents each.

A Glorious New Rose, CLIMBING MARIE GUILLOT.

If you have never seen Marie Guillot growing at its best in the open ground you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the Queen of White Roses, and while there are many white varieties of unquestionable excellence, there are none more reliable for out-door cultivation than Marie Guillot. It is one of the most rapid-growing and vigorous Climbing Roses we have ever seen, small plants making a growth of 10 to 20 feet in five months. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. Price, 15 cents each; large two-year-old plants, 30 cents each.

New Ever-Blooming Rose, CLIMBING PERLE DES JARDINS.

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur rose growers alike as the Perle des Jardins. It is not only admirably adapted for forcing, but thrives well in the open air, blooming freely in either case. Its large, full, well-formed, golden-yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate-hued blossoms. Climbing Perle is even more vigorous and floriferous than the bush form. It is hardy in the South. Price, 15 cents each; two-year-old plants, 30 cents each.

REINE MARIE HENRIETTE.

The great New Orleans Rose, but does equally as well in the north where with a little protection will stand the cold winters. An excellent crimson flowered ever-blooming climber. The flowers are prettily formed, very full and double, delightfully tea scented, strong growing and very free flowering. Price, 10 cents each; two-year-old plants, 30 cents each.

For every dollar's worth of Plants you order at price per single plant, you may select from this catalogue 20 cts. worth of extra plants as premiums, except on special offers or collections, to which this offer does not apply.

CLIMBING KAISERIN.

The Grand New Velvety Red Rose, CLIMBING METEOR.

All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of Roses for summer blooming, as it will make a strong growth and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Don't fail to plant one or more of Climbing Meteor. Price, 10 cents each; two-year-old plants, 30 cents each.

The Superb New Scarlet Rose, CLIMBING WOOTON.

This elegant new Climbing Hybrid Tea Rose is one which promises to be a prime favorite wherever introduced. Everything good that can be said of the grand Rose, Souvenir de Wooton, can be said of this Rose, and more, too. The flowers are large and of a beautiful velvety-red color, and the perfume is elegant. Whether open, half open or in bud, the flowers are of fine shape. The flowers are borne at the terminus of long shoots, which render them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wooton. Price, 15 cents each; two-year-old plants, 30 cents.

The Beautiful White Marechal Niel.

The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is pure white; totally distinct. We have seen Marechal Niel growing to perfection here in the North, surviving the severest winters, but it is less hardy than the average Climbing Tea or Noisette. In the South it will be grand—just as good as Marechal Niel. If carefully protected in the North it will also prove itself a magnificent Rose. For house or greenhouse culture it ranks among the first. As a companion plant to Marechal Niel we anticipate a splendid demand for it. Price, 15 cents each; large two-year-old plants, 40 cents each.

The Superb Yellow Marechal Niel.

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. This is one of the Roses that starts rather slowly, and for that reason the best success will be had with the plants priced 35 cents. Price, nice, well-established plants, 10 cents each; large, fine two-year-old plants, 35 cents each. We have limited quantity of special size at 50 cents.

The Wonderful Red Marechal Niel.

For years we have had the much-admired and ever-popular Yellow Marechal Niel, and recently to it was added the White Marechal Niel. But now, to cap the climax, that famous German Rosarian, Peter Lambert, has brought out the Red Marechal Niel, a fitting companion to the other two and completing a most desirable trio. The Red Marechal Niel is the result of a cross between the ever-gorgeous Gen. Jacqueminot and the Yellow Marechal Niel. Flowers are large, well-shaped, full, and of the form of Yellow Marechal Niel in the bud and open flower; color carmine red, shading to pink; fragrance delightful. Very strong grower, though not so rampant as the Yellow Marechal Niel. Price, 15 cents each; large two-year-old plants, 40 cents each.

SPECIAL OFFER.—The Famous trio, the White, Yellow and Red Marechal Niel, nice plants, 35c.; fine large 2-yr. old plants, \$1.

CLIMBING BRIDESMAID.

The Pure White Tea Rose, THE QUEEN.

A most charming Tea Rose. The offspring of that fine old rose, Souvenir d'un Ami, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely-formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming roses. Price, 10 cents each.

Have you looked over our List of Flower Seeds on pages 63 to 72?

**A Rose among Roses,
CLIMBING
BRIDESMAID.**

If there is one Rose more beautiful than another, that Rose is Bridesmaid. It is the standard pink cut-flower Rose of America. It has many rivals, but as yet it holds its own as one of the grandest Roses in commerce. It represents the highest degree of beauty yet attained in Roses of its class. It is distinct in form, distinct in growth and equally distinct in color. When we first offered this new variety as a sport from Bridesmaid, its popularity was assured. We want our customers to try this Rose, more especially those whose winters are not too severe. It is quite hardy, but where the winters are very cold and long it should be carefully protected in open ground. It grows rapidly and strongly, and blooms as freely as does its parent, Bridesmaid, which is practically all the time. The flowers are simply beautiful (identical with Bridesmaid), clear dark pink; in bud they are superb, beyond anything we have ever seen. This is one of the most valuable additions to the Climbing Tea Roses made in recent years. Price, 15 cents each; large two-year-old plants, 35 cents each.

The Best Pure White Tea Rose for Bedding,**Marie Guillot.**

This beautiful Tea Rose continues in popular favor, and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10 cents each; large two-year-old plants, 25 cents each.

New Tea Rose,**MADEMOISELLE FRANCISKA KRUGER.**

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. In its shadings of deep coppery-yellow it stands unique and distinct from all others. The flower, when open, is of good size and very symmetrical. Price, 10 cents each; large plants, 25 cents each.

MARIE VAN HOUTTE.

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented. Price, 10 cents each; large plants, 25 cents each.

A Charming New Tea Rose, GENERAL ROBERT E. LEE.

It is in color an orange-yellow, after the color of Mad. Capucine, only richer and better. It is a good grower, has elegant long buds, borne on long stems. It forces easily, being at its best in mid-Winter. The color is so peculiar and rich that it attracts attention wherever seen. Try it. Price, 10 cents each; two-year-old plants, 25 cents each.

The Beautiful Yellow Tea Rose, STAR OF LYON.

(Etoile de Lyon.)

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold. Price, 10 cents each; large two-year-old plants, 30 cents each.

PINK AND RED LA FRANCE.

SPECIAL OFFER.—The Four La France Roses for 40 cents; Two-Year Size, \$1.00.

MRS. ROBERT GARRETT.—New Rose.

The size is enormous; indeed, the flowers are larger than any Tea Rose we have ever seen, while the form, both in bud and full blown flower, is most artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in Roses. It is a strong, vigorous grower, producing its flowers on long, stiff stems. Price, 20 cents each; large two-year-old plants, 40 cents each.

CHAMPION OF THE WORLD.

The blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few roses can equal, being a rich, deep, rosy-pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer. It will flourish and bloom profusely where all other sorts fail, and is just what has long been wanted—a fine, free flowering rose for window culture during winter. Price, 15 cents each; large two-year-old plants, 30 cents each.

Pink La France.

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents each; large size, 30 cents each.

The Red La France.

(Or Duchess of Albany.)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 15 cents each; large size, 30 cents each.

White La France.

(Augustine Guinnoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for out-door culture or for pots in the house in winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents each; large size, 30 cents each.

Striped La France.

(Madame Angélique Veyssset.)

Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it only in two points: First, it is freer in bloom than the parent; second, it is nicely striped, the markings being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 15 cents each; large size, 30 cents each.

**The Beautiful New Hybrid Tea Rose,
President Carnot.**

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom. Price, fine young strong plants, 15 cents each; fine two-year-old plants, 40 cents each.

The Fine Pink Tea Rose, Catherine Mermet.

One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cents each; two-year-old plants, 25 cents each.

WHITE MAMAN COCHET.

The Beautiful Yellow Tea Rose, PEARL OF THE GARDEN.

Perle des Jardins—The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but it is a perfect and popular rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equaled in beauty by the open rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark, every branch being topped with the dark reddish-maroon of the young shoots, and bearing its buds high above the leaves. Price, 15 cents each; large plants, 35 cents each.

New Ever-Blooming Rose, GOLDEN GATE.

There are so many beautiful Roses, and they are beautiful in so many different ways, that it scarcely seems possible for any one variety to be the most beautiful of all Roses; and yet if the question were to be decided, we are strongly of the belief that the palm would have to be awarded to the new Tea Rose, Golden Gate. This magnificent Rose is the result of a cross between those old and greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both, is vastly more beautiful than either. The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden-yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. Price, 15 cents each; large two-year-old plants, 35 cents each.

“The Forcing Set.”

This collection of roses are ones that are known by the trade as forcing roses or the varieties that are grown by florists to cut from, for weddings, receptions, etc. So it is natural to suppose that they are of the best varieties, producing the finest flowers and the easiest cared for.

WHITE TEA ROSE, White Maman Cochet.

The finest rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice roses to plant at least one of this beautiful new rose. Price, 15 cents each; two-year-old plants, 30 cents each.

Tea Rose, SUNSET.

A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper. Intensely beautiful and resembling in color a splendid “Afterglow.” It is a constant and profuse bloomer. Price, 15 cents each; large, fine two-year plants, 40 cents each.

New Tea Rose, BRIDESMAID.

Here we have a new rose, a sport from that old stand-by, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 10 cents each; large two-year-old plants, 30 cents each.

The Grandest of all, THE METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large two-year-old plants, 35 cents each.

White Tea Rose, THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

The Beautiful Ever-Blooming MAMAN COCHET.

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You can get an idea of the exquisite flower from the engraving. It is of the largest size, and, as you will notice, the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shading and touched with golden-yellow. We pronounce this the finest rose by far that has been introduced from France in the past five years. Price, 15 cents each; large two-year-old plants, 35 cents each.

THE FULL SET OF FORCING ROSES FOR 80 CENTS.

The Four Hardy Ever-Blooming
HERMOSA ROSES.

We offer Four of the Hermosa type of Roses. If you want to have rosebuds to cut all summer, this set will give you an abundance.

YELLOW HERMOSA, Coquet de Lyon.

This is a most charming yellow Tea Rose, a grand grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. This is the best blooming pure yellow Rose in our catalogue. We sold of this Rose the past spring 35,000 plants. It is a Rose that will please all. Price, 15 cents each; large two-year-old plants, 30 cents each.

CRIMSON HERMOSA, Queen's Scarlet.

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 15 cents each; large two-year-old plants, 30 cents each.

WHITE HERMOSA, Marie Lambert.

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 15 cents each; large two-year-old plants, 30 cents each.

PINK HERMOSA, The Old Favorite.

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large two-year-old plants, 30 cents each.

SPECIAL OFFER.—The Four Hermosa Roses for 40c. or the four in large two-year size for \$1.00.

NOTE.—The seed pages are in the last part of the book. Give us a trial order for Seeds.

The Great "Soupert"
Collection of Roses.

Yellow Soupert, or Mosella,

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals; it will make a great bedder and perfectly hardy. Price, 15 cents each; two-year-old plants, 35 cents each.

The Beautiful New Pink Soupert.

This bright new Rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the C. Soupert. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert. Price, 15 cents each; two-year-old plants, 35 cents each.

White Soupert, or Leonie Osterrieth.

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of a good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthus. Price, 15 cents each; two-year-old plants, 35 cents each.

**The Famous Hardy Ever-Bloomer,
Clothilde Soupert.**

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10 cents each; large plants, 30 cents each.

SPECIAL OFFER.—The Great Soupert Collection for 40c.; two-year-old plants for \$1.25.

MRS. DE GRAW.

In color it is a rich glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden or cemetery. A Royal Rose. It is a wonderfully prolific blooming variety. Every shoot is loaded with flowers. Price, 15 cents each; two-year-old plants, 30 cents each.

New Rose, HENRY M. STANLEY.

The color is a rare shade of amber-rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff-rose. The flowers are of good substance, very large, finely formed, and very full and fragrant. Price, 10 cents each; large two-year-old plants, 25 cents each.

Rambler Roses.

This class of roses are now being planted everywhere. They are strong and vigorous, perfectly hardy and may be trained to climb anywhere.

CRIMSON RAMBLER.

The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this rose is its remarkable color, which is of the brightest crimson, which remains undimmed in the end, showing none of the objectionable purplish tint so common in crimson roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

New Rambler Rose, PSYCHE.

A seedling of the famous Crimson Rambler. Blooms in clusters of from 8 to 25 flowers each, of a delicate rosy pink shade, suffused salmon and yellow at the base. Of vigorous climbing habit, making strong shoots 8 to 10 feet long in a single season. Price, 20 cents each; two-year-old plants, 35 cents each.

The New Hardy Climbing Rose, Yellow Rambler.

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of the Crimson Rambler. The color is a decided yellow. Many roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet scented. The habit of growth is very vigorous, well established plants often making shoots of from eight to ten feet in height in a single season. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established they more than make up for this by the magnificence of the flowers they produce. Price, 10 cents each; two-year plants, 25 cents each.

CRIMSON RAMBLER.

The Beautiful New White Climber, WHITE RAMBLER.

(THALIA.)

Of German origin, and in habit of growth, foliage, manner of blooming, form of flowers and hardness it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented, which the flowers of Crimson Rambler are not. Price, 10 cents each; two-year-old plants, 25 cents each.

Charming New Hardy Climbing Rose, PINK RAMBLER.

(EUPHROSYNE.)

What is said of White Rambler applies equally to this, except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. The numerous yellow stamens lend an additional charm to the flower. Price, 10 cents each; two-year-old plants, 30 cents each.

SPECIAL OFFER.—The Five Ramblers, including the novelty PSYCHE, for 50c.; Two-year-old \$1.25.

EMPRESS OF CHINA.

A hardy climbing rose of easy growth and pretty foliage. It is claimed by the introducers to be a wonderful bloomer, which is correct for most of the State, while in others it does not bloom so freely, but a very rapid growth. A fine rose, which is sure to please. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Fine New Climber, CLIMBING WHITE PET.

This is an unusually vigorous grower and a wonderfully profuse bloomer. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 10 cents each; large two-year-old plants, 25 cents each.

THE YELLOW RAMBLER.

A Page of Crimson Beauties in Roses.

SPECIAL OFFER:—The whole page of **Crimson Beauties** (9 Roses) for 80 cts.; large two-year-old plants, \$1.80. Remember no Discount on this offer.

WOOTON.

PERNET'S TRIUMPH.

The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each.

New Crimson Tea Rose,

CHRISTINE DE NOUE.

It is a splendid grower, making a large-sized, graceful bush, with bright, deep green foliage; a constant and very free bloomer; the flowers are well-borne upon strong stems, and are unusually large and handsome; the buds are long and finely pointed, and the color a clear, rich maroon, or deep purplish-red, passing to lake, center sometimes streaked with silvery-white; the petals are finely imbricated, and the flowers are deliciously sweet. It is highly recommended as a valuable and in every way desirable rose for general planting. Price, 15 cents each; large two-year-old plants, 40 cents each.

PRINCESS BONNIE.

One of the finest dark colored Tea Roses. Very nearly hardy in most parts of the country. In color, solid crimson. Is already a prime favorite and will be planted even more extensively. Price, 15 cents each; two-year-old plants, 30 cents each.

Souvenir

De Wooton.

An American variety of great promise, with the following good qualities: (1) Color velvety-red, equal to Jacqueminot; (2) perfume which cannot be excelled; (3) continuous flowering qualities; (4) the most prolific bloomer in existence, every shoot containing a flower bud; (5) habit exceedingly vigorous, and in foliage quite equal to the American Beauty; (6) it never makes imperfect buds, and dark weather but deepens the color, giving it a richer shade of crimson; (7) it is a full double Rose, and is good in bud, half open, or fully expanded. Full open flowers frequently are six inches in diameter. Price, 15 cents each; large plants, 35 cents each.

The Grandest of all, THE METEOR

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red rose yet produced. Grand, both in bud and flower. Price, 15 cents each; large two-year-old plants, 35 cents each.

The Beautiful New Crimson Bedding Rose, PRINCESS SAGAN.

The flowers of this variety are the richest crimson of any Rose in our collection, a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 15 cents each; large two-year-old plants, 40 cents each.

Fine Crimson Tea Rose, PAPA GONTIER.

A grand red Tea, of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form, and you would never suspect from it that the rose is only semi-double. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut, the foliage being very dark and heavy. One of the best, and a perfect bedder. Price, 10 cents each; large two-year-old plants, 25 cents each.

New Red Tea Rose, PRINCESS HOHENZOLLERN.

A very strong, vigorous grower, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep satiny-red, with lighter center. Price, 15 cents each; large plants, 30 cents each.

JAMES SPRUNT.

A good rose for this collection. The flowers are of a large size, and a deep cherry red in color. A very free bloomer and of vigorous growth. With a little protection it will stand the cold winters. Price, 10 cents each; two-year-old plants, 25 cents each.

NOTE.—Don't overlook the New Rose "Sunrise" illustrated on front of cover. It will blend well with your "Crimson Beauties."

W E wish to call special attention to our large *AMERICAN BEAUTY*. They are strong two-year plants that are bound to give flowers at once.

The Queen of Roses, American Beauty.

This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. Why is this? There must be a reason. It is because of its large size, rich color and delicious fragrance. One of its chief attractions is its elegant foliage (see illustration from photograph, which will show you what long, stiff stems and heavy foliage it can be cut with). It is a hardy Rose, of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask, or Moss Rose. It is the sweetest of all Roses. In color it is a deep, brilliant red, shading to a rich carmine-crimson. It is entirely hardy, and is a valuable Rose for the garden or in-door culture, flowering freely during the winter. American Beauty is like Marechal Niel—difficult to start from small plants; therefore, we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason it is hard to propagate. It can only be rooted with success during winter. Our small plants are strong and thrifty. Price, 25 cents each; fine, large two-year-old plants, 50 cents each.

The Old Favorite, BON SILENE.

Still a prime favorite, on account of its delightful fragrance and strong growing qualities; color, deep rose, shaded carmine. Valuable for summer or winter flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

The Great Southern Rose, Madame Lambard.

This variety is planted in the south as much as any Rose on the market. A first-class Rose for garden planting or pot culture, habit of growth is vigorous and blooming quality very free. The color is a beautiful shade of rosy bronze, changing to salmon and fawn, shaded with carmine. Very sweet scented. An exceptionally fine variety. Price, 10 cents each; two-year-old plants, 25 cents each.

Hybrid Tea Rose, Madame Schwaller.

The color is a bright rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A rose from which we hear very flattering reports from all directions. This grand rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10 cents each; large two-year-old plants, 25 cents each.

KAISERIN AUGUSTA VICTORIA.

**The Great Tulip Rose of Europe, the Beautiful
Madame de Watteville.**

The color is a remarkable shade of creamy yellow, richly covered with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Price, 10 cents each; large two-year-old, 30 cents each.

The Lovely Tulip Rose, J. B. Varrone.

Superb elongated buds and extra large vase-shaped blooms. Color an intensely scarlet-crimson, very rich and bright, beautifully shaded with salmon-yellow or buff-rose at center. Very beautiful and sweet. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Charming Tulip Rose, Madame Eli Lambert.

This is a superb, rich, new Rose, carrying such fine combinations of color that it is sure to please. It belongs to the Tulip class, salmon-pink, with the center of copery-rose, elegantly edged darker. The petals are so thick and velvety-like as to hardly resemble a Rose. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Burbank Rose, a Hardy Ever-Blooming Rose.

The flowers are double, of fine form, nearly three inches across. The color is a deep rose-pink, shading to beautiful soft rose at the center. The petals are well incurved so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. The whole flower is most pleasing in its rich, graceful beauty, and is delightfully fragrant. Price, 10 cents each; large two-year-old plants, 30 cents each.

**New Tea Rose,
KAISERIN
AUGUSTA
VICTORIA**

This beautiful rose has not only a royal name, but it is a royal rose as well. We have white roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white roses that are elegant when full blown, but have poor buds. This rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white. It far surpasses any other white rose in all particulars, and has a much richer perfume. Price, 15 cents each; large two-year-old plants, 35 cents each.

**Madame Abel
Chatenay,
Forcing Rose.**

This is a wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurved and of a beautiful creamy-rose, shaded with rose-vermilion and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades, strongly accentuated. This will undoubtedly make a fine garden rose, because of its substance and hardness. Price, 10 cents each; two-year plants, 30 cents each.

The Pretty Tea Rose, RAINBOW.

The color is a lovely shade of deep coral-pink, striped and mottled in the most unique manner with intense crimson and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet and of great depth and substance. Price, 10 cents each; large plants, 25 cents each.

New Tea Rose, CHARLES LeGRADY.

Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. Price, 10 cents each; large two-year-old plants, 25 cents each.

Souv. de la Malmaison.

This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Price, 10 cents each; large plants, 30 cents each.

Isabella Sprunt.

A bright canary-yellow, large, beautiful buds, suitable for cut flowers, a very sweet Tea scent, profuse bloomer. It is no doubt the freest blooming of all yellow Roses. This variety has been a favorite, in all gardens where good yellow Roses are planted, for the past twenty years. There are none better. Price, 10 cents each; large two-year-old plants, 25 cents each.

THE NEW

Wichuriana Roses

These charming roses are of the same creeping habit as Rosa Wichuriana, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. They are beautiful for their foliage alone, which is finely cut, thick and leathery, brilliant deep glossy-green. These roses are of intense hardiness, and succeed in all soils, even on the poorest and driest conceivable.

Manda's Triumph—The gem of the collection and may well be called the Double Memorial Rose. Very large, double flowers, fully two inches across, pure white, finely formed and sweetly fragrant, borne in large clusters.

Hardy Roses==Hybrid Perpetuals.

When you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual, it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season. Give them a chance to become established. These Roses are especially suited to plant in all the Northern States and Territories; also in the colder parts of the states of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

GLORIE LYONAISE.

New Hardy Rose, Gloire de Lyonaise.

This grand Rose is the nearest yellow Hybrid Perpetual we have. It can not be called deep yellow, but rather a pale shade of chamois or salmon-yellow, deepest at center, sometimes passing to a rich, creamy-white, finely tinted orange and fawn. The flowers have all the beauty of Tea Roses, are large, full and delightfully sweet. This we consider one of the very best Roses we have ever seen. It will be sure to delight you. Price, 15 cents each; large two-year-old plants, 35 cents each.

Variegated Rose
Roger Lamberlin.*

One of the most remarkable Roses yet offered. The petals are irregular on the edges like a double Petunia; the color is glowing crimson throughout, except the edges of the petals, which are all distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known in Roses. The growth is free and vigorous, and the fragrance is delightful, equal to the finest of the hardy Roses. This is a "novelty" of the most striking order. Price, 15 cents each; large two-year-old plants, 40 cents each.

*New Hardy Rose,
Margaret Dickson.*

This magnificent new white Hybrid Perpetual Rose is unquestionably the greatest acquisition made in Roses for the past ten years. Some idea of its beauty and worth can be formed from the fact that wherever it has been exhibited in Great Britain it has carried off first honors, receiving in one year the Gold Medal of the National Rose Society of New England and six first-class certificates. No other Rose has ever received so many certificates of merit in a single year. The color is white with pale flesh center, petals very large, shell shape, are of immense substance. The flowers are of magnificent form, produced singly on long, stiff stems, are very double, and have the true magnolia fragrance. The habit of growth is vigorous, with large and luxuriant foliage. Price, 20 cents each; two-year-old plants, 40 cents each.

COQUETTE DES BLANCHES.*

MOSS ROSES.

Who does not admire Moss Roses? Their mossy buds are the very symbol of beauty and elegance. Nearly all the varieties are strong, robust growers, perfectly hardy and deserve rich culture. They are not easily propagated, and, therefore, the price will always be higher than that of other roses. They are perpetual bloomers, which, highly cultivated, will give two or three flowers to the other one's crop; but the prettiest flowers are found among the annual bloomers. Price, 15 cents each. We have large two-year-old plants for immediate effect at 35 cents each; three for \$1.00.

CARNATIONS.

THE \$30,000 CARNATION,

Mrs. Thomas Lawson.

This famous and much advertised Carnation was bought from the introducer, Mr. Fisher, by Mr. Thomas W. Lawson, who paid \$30,000 for the stock of this variety. It has created quite a sensation on account of its wonderful size and beautiful color—a deep cerise pink approaching very near to a brilliant carmine. The habit is strong, free growing, very vigorous, producing flowers averaging over three inches in diameter. It is an early bloomer and very free. This Carnation has taken first prize in Boston, New York, Philadelphia and Chicago in all the competitive Carnation exhibitions. Price, 15 cents each.

C. H. Crane.

Without a doubt the best scarlet grown. It was tested by the originator for four years before introduced to the public. Nothing will equal it for large flowers of quality and quantity. Color, a flaming scarlet. Growth strong, hardy, broad foliage and makes a well formed plant. Price, 15 cents each.

Ethel Crocker.

A fine Carnation in size and form. We do not hesitate to recommend this as one of the best all round Carnations. The flowers are very large, borne on a stiff and strong stem. Color a pure rich pink. The growth is strong and clean, every shoot a flower producer. Price, 10 cents each.

General Maceo.

This is a magnificent dark scarlet-maroon Carnation. Flowers are of large size, very full and deeply fringed, deep, brilliant scarlet-maroon—fully as rich and striking as a Meteor Rose. Calyx is perfect—never bursting; flowers borne erect on stiff, wiry stems. Price, 10 cents each.

White Cloud.

This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, purest white. Indeed, for size and freedom of bloom, purity of color, which is immaculate, sweetness of perfume that is delicious, vigorous growth, this variety has no equal. The best white by far out of a dozen varieties we have of that color. Price, 15 cents each.

General Gomez.

Brilliant cardinal-maroon. Strong, vigorous, very healthy habit. Blooms fully as freely as Portia, resembles Scott in habit and seems to have fully as good a constitution as that variety. Flower is full and well fringed and of a very pleasing form, good fragrance. The color is magnificent and as rich and brilliant as the Cardinal flower, without the slightest tendency to turn back; in fact, no crimson Carnation has ever come to our notice possessing such a vivid brilliant shade of color. Price, 15 cents each.

Delicate salmon-pink; vigorous grower. Color, when at its best, very soft, clear and pleasing. Flower will not stand in full sun, as the color bleaches, and should be shaded when sun is strong. The color is a fine canary-yellow of a soft texture. It is a large flat incurved variety with broad petals, out petals drooping a little as the flower opens. The dark green foliage, stiff stems, and medium height, make it one of the best cut-flower varieties we have ever grown. It has received several certificates of merit at the Chrysanthemum shows. Price, 15 cents each.

Mrs. Henry Robinson.

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms; it is of the most popular style—immense, incurving, broad-channeled petals of great substance and the purest white; from a flat incurved form it gradually changes into a perfect ball of snow, sixteen to eighteen inches in circumference. Winner of twenty-six first prizes. Price, 10 cents each.

George W. Childs.

No Chrysanthemum created such a sensation as did this, when exhibited at Orange, N. J., and Philadelphia. The flowers are of massive size, reflexed, with broad, stiff petals; color deep, rich, velvety crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. The foliage resembles Cullingfordii, but it is much heavier and darker. They grow close up to the flowers, which gives the plant an elegant appearance. Price, 10 cents each.

Violecons.

A mammoth, extra large, light pink variety of most robust habit and medium size. Not only a fine cut-flower variety, but is unexcelled for pot culture. The flowers are a beautiful shade of light pink, shading to a deeper pink at the end of the petals. The form of the flower is very similar to the old variety, Ivory, only much larger. Do not overlook this variety in making up your collection. Price, 10 cents each.

This novelty is undoubtedly the finest white variety up to date. It excels all in purity, extra large in size, of beautiful half globular form with broad incurved, shapely petals of great substance; growth robust, with large, smooth, heavy, deep green foliage; carries flowers erect on stiff stems; a grand show flower, and promises to be a very profitable sort for commercial purposes. It is a fine, strong, clear grower. Price, 10 cents each.

Mrs. Jerome Jones.

This is a fancy cut-flower variety which completely captivated us. It is almost of globular form, of the finest silky finish, and destined to become a standard sort for cutting. Dorothy Toler—A perfect pink globe. This variety is truly a gem, while its great depth, perfect fullness and fine pink color, with its grand lasting qualities, will make it rank as the leader among late pinks.

Effie Dean—A beautiful sport from the fine commercial sort, Maud Dean. The color is a charming ivory-white, beautifully veined; when flower is fully developed shows the carmine center, making it very effective.

Frank Thompson—A splendid flower, very nearly spherical in form, petals very broad and heavy, and finely incurving. It is very nearly white in color, only showing a touch of pearl-pink at the base of the petals. A strong grower, carrying flowers on stiff stems.

Gettysburg—This is a deep crimson variety, and excels in its color as Golden Wedding does in yellow. Deep, rich crimson, which in the flower itself is soft and velvet-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight.

Golden Trophy—This magnificent new Chrysanthemum was exhibited last fall, measuring over fifteen inches in diameter. The color is a deep, rich yellow, the half expanded flower incurving. In the fully expanded flower the petals are reflexed, showing a yellow disc.

Gloriosum—Light lemon color, with immense flowers, having narrow petals gracefully curved and twisted; quite early and one of the best.

Glory of the Pacific—This fine variety will rank among pink sorts as Bergmann does among whites. It is of magnificent size and depth, with broad petals, which finally reflex, showing the clear pink color to excellent advantage.

L. Canning—A most exquisite white, absolutely pure. The flower is quite regular in form, very large and flat, the length of the petals graduating to the center.

Maud Dean—An immense pink variety, finely incurved, petals broadly shell-shaped. One of the largest flowers exhibited in the fall shows. Almost a pure self-pink. Received silver medal at Philadelphia, and awarded certificates of merit at New York and Philadelphia.

Mrs. E. G. Hill—The finest extra early pink, of largest size. Broad, bold, incurving flower of great depth and substance. Color exquisite shade of light pink. A very popular market cut flower.

Major Bonnafon—Soft clear yellow, full in the center, eight inches in diameter and nearly as deep. In perfect form and finish, habit dwarf, keeping qualities excellent. It is entirely distinct in color and form from Eugene Dailedouze. It was awarded a World's Fair Medal with the highest recommendations from the judges; has won ten first prizes.

Mme. F. Bergman—The finest of all the early whites; very large and full, and of the purest white, with creamy center; a strong, sturdy habit; fine foliage. The most popular white variety with florists for early forcing.

Mrs. J. G. Whilldin—A handsome yellow variety of light tint, fine, large size and splendid form. A magnificent addition to the scarce, very early, large flowering varieties. Whole large greenhouses are devoted to this variety in the east for cut-flower purposes.

Mrs. M. R. Parker, Jr.—Dwarf, robust habit, with unusually strong stem and fine foliage. Flowers seven and a half to eight and a half inches in diameter, with broad cupping and incurving petals, the inner surfaces of which are a rich deep pink, reverse light silvery shade, forming a bright contrast.

Miss Kate Brown—A new, early October flowering Chrysanthemum of strong growth and luxuriant foliage; leaves thick and leathery; flowers extra large, reflexed, with petals slightly twisted; color pure snowy-white. When the flower is fully opened it shows a bright yellow disk, and resembles an immense daisy.

Mrs. Maria Simpson—Color soft chrome-yellow; a fine example of the broad petaled, incurving Japanese type, showing no center; very large; a fine grower, with stiff stems. Silver medal at Philadelphia; certificate at Indianapolis.

Niveus—A splendid snow-white variety. Center irregularly incurving with outer petals reflexing nearly to the stem. Constitution robust, foliage large and abundant, while the keeping qualities of the flowers are unsurpassed.

Pink Ivory—(Miss A. L. Dalskov.) A sport from Ivory, the most popular of all white Chrysanthemums; it is identical with Ivory in every respect except color, which is a beautiful shell-pink.

Robert Bottomly—Petals long, and, when well grown, half an inch in breadth. Flowers often measure six to seven inches in diameter. Color pure white.

Puritan—This is undoubtedly one of the choicest as well as largest Chrysanthemums grown—as large as Mrs. F. Thompson; a beautiful silvery white, turning to pure white.

Violet Rose—A grand variety. Exceedingly free, of perfect form. A beauty combination of violet and rose in color.

Vivian Morel—A mammoth variety, with long, loosely arranged petals of a most beautiful shade of pink; a strong, sturdy grower, with deep green foliage; contour very distinct from any other in common.

Charming New Yellow Ostrich Plume, Perle of Lyonaise—Bright clear golden-yellow, somewhat plumed, quite full, one of the very finest; of medium size; beautiful globular form; new.

L'Enfant—(Des d'Mondes.) Pure white. This grand white sport from L. Boehmer was well received, having many admirers at the shows. Like the parent, is a strong grower of good habit, and is considered the best white of the hairy type, and well deserves a prominent place in any set of this peculiar style of the Chrysanthemum.

Louis Boehmer—(Pink Ostrich Plume.) The "Louis Boehmer" has the same wonderful hair-like growth or excrecence that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals.

Wm. Falconer—Identical with the former, of which it is a sport, except in color, which is a soft, delicate blush, shading almost to white.

W. A. Manda—The flowers are very large, of a clear golden-yellow—the hairy growth being much more fully developed than in the older varieties of this type. It is a much better pot or specimen plant, having a number of flowers on the smallest plants. The plant is of vigorous growth, and the flowers are borne upright on a stout stem.

White Boehmer—A novelty that has even surpassed its promise; immense, perfectly incurved flower, with broad petals showing a plush-like surface, with odd glistening sheen. The pure white blooms seen at most of the shows were extremely beautiful.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality, when cut, is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. It is one of the finest decorative vines recently introduced; by many florists it is used instead of smilax, as easily grown and very much more beautiful on account of its light feathery growth. Price, nice plants, 15 cents each; two for 25 cents; large plants, 25 cents each.

ASPARAGUS SPRENGERI.

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. See illustration. Price, 10 cents each; three for 25 cents; large plants, 20 cents each.

BOSTON IVY.*Ampelopsis Veitchii.*

This vine also goes under the name of "Japanese Ivy" and "Boston Ivy." It clings readily to any surface, not even excepting glass, where it will spread its fairy-like tracery of infinite small leaflets and the accompanying circular suckers by which it is attached. The older leaves attain a moderate size. They are graduated down to very small ones. The texture is leathery and smooth. The foliage is closely over-lapping, not a stem visible. Its color, very bright in autumn, is a delicate green in summer. Price, 10 cents each.

ACHYRANTHUS.

Indispensable for bedding purposes, either in massing or ribboning, their brilliant tinted leaves forming a marked contrast with all other plants, being much harder than Coleus. They are considered preferable for massing and ribbon lines. Price, 10 cents each; set of five varieties for 30 cents.

The leaves of all are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully fountain fashion; others are broad and short, oak-leaved. Some recurve very much, others are twisted corkscrew-like. Crotons love heat, sunshine and moisture. Crotons are fast becoming one of our most beautiful bedding plants, and are also one of the handsomest house plants in pots. In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. Sanseveria Zealanica.

A New Decorative Plant of Great Value

There is scarcely a decorative plant listed that is more striking in foliage and habit than this, and certainly none other that stand as much downright neglect and hardship as well as this. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. NEW GIANT HARDY PRIMROSE.

(*Primula Veris Superba*.)

The plant originated a few years since in a batch of seedling Polyanthus, and apparently is a hybrid Primrose, having somewhat the growth of a Polyanthus combined with the yellow color and fragrance of the English Primrose. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other plant of the same family. This alone is sufficient to insure its popularity as a plant for the garden, but its greatest merit consists in the fact that it is one of the easiest plants to bring into flower during the winter and early spring months, and will be especially valuable around Easter. Price, 25 cents each.

HARDY PHLOX.

Their vigorous growth and freedom of bloom make them very useful plants, while they are unexcelled in beauty. The improvement made in this beautiful class of plants is, perhaps, more marked than in any other section of the hardy herbaceous family. Instead of the thin flowers, which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, carmine, red and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere.

Price, 10 cents each. The seven varieties for 60 cents.

Cross of Honor—Beautiful light rose, striped pure white.

Flora McNab—Pure white and free.

OUR Improved Lily of the Valley

Lilium Speciosum Rubrum.

Large flowers, recurving more or less at the tips. Among the showiest of all Lilies and perhaps the most robust and the most radiantly beautiful. Very fragrant and hardy. Lovely rose and white, spotted crimson. Price, 20 cents each.

Double Tiger Lily. *Tigridium fl. pl.*

This magnificent Lily is borne in immense clusters on tall stems; the flowers are very large, frequently six inches across, and very double; color deep fiery red, spotted with black; any illustration gives but a faint idea of the showiness of this superb Lily. Price, 15 cents each.

Lilium Candidum.

The Madonna or Annunciation Lily—This Lily is the emblem of purity. The deep lemon anthers contrast beautifully with the wax like petals. The fragrance is delicious and never oppressive. It is one of the best of Lilies to grow in the house or outside. Perfectly hardy. Price, 15 cents each; four for 50 cents.

Lily of the Valley.

Too well known to need any special description. Everyone knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter just as easily. We offer strong, imported pips, that have been grown especially for winter blooming. Plant half a dozen pips in a four-inch pot, keep rather cool until well started, then bring to the light and warmth, and keep freely supplied with water. You will be surprised at the rapidity of their growth and at the size of their lovely fragrant bells. If you wish them for Easter start them in February. We can supply the bulbs all winter. Price, 5 cents each; 50 cents per dozen.

Dwarf Excelsior Pearl Tuberoses.

The Finest in Existence, All Blooming Bulbs.

The Tuberoses are noted for its delicate beauty and exquisite fragrance, rivaling orange blossoms in sweetness. The flowers are pure white, very double and wax-like, and are borne on stems two or three feet high. Tuberoses will not bear much cold. Do not plant in the spring till the ground is warm. They may be started in the house in a warm place, but care should be taken that they get no check in setting out. Plant three or four inches deep in rich ground.

DWARF EXCELSIOR PEARL.

A splendid new variety, the finest ever introduced; greatly superior to the common Pearl; grows about eighteen inches high, blooms very early, matures perfectly; flowers pure white, large size, very double and intensely sweet. We send splendid, large, well-ripened bulbs, the finest ever grown, all sure to bloom. Price, fine, extra-large, well-ripened bulbs, all sure to bloom, 6 cents each; five for 25 cents; twelve for 50 cents; twenty-five for \$1.00.

FINE MIXED GLADIOLI.

Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded when in flower. We trust that many of our friends will avail themselves of these very low prices to plant largely; the spikes of bloom, richness and brilliancy of color are out of all proportion to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents; 30 cents per dozen, or \$2.00 per hundred, postpaid; by express, \$1.75 per hundred.

HARDY JAPANESE LILIES.

Lilium Auratum—Golden-Rayed Queen of Lilies.

The grandest Lily grown, and a never-failing delight. We take pleasure in showing it to people who have never seen it. It seldom fails to create a sensation. The perfume is exquisite, light, yet penetrating. Magnificent by daylight, but by moonlight a well-grown plant, carrying five or more blooms, is simply indescribably beautiful. Also known as "Gold Banded Lily from Japan." Price, 20 cents each.

Lilium Speciosum Monstrosum Album.

A variety of the above, with broad, flat stems and immense heads of flowers. Pure white and very fragrant; petals gracefully recurved; a very fine sort. Price, 20 cents each.

Lilium Roseum.

Another fine Lily. In growth, character, shape of flower, it is the same as *Lilium Auratum*, but instead of the gold band it has a beautiful band of rose. Price, 20 cents each.

SPECIAL OFFER.

One each of the six hardy Japanese Lilies, which are so admired by everybody, for \$1.00

SPIDER LILY.

The New Hardy WHITE SPIDER LILY.

This grand new Spider Lily has the advantage of being perfectly hardy, and when left undisturbed a few years forms large imposing clumps that are a mass of clustered heads of pure white, fragrant flowers. The flowers have a peculiar and striking beauty, which must be seen to be appreciated. The flowers are borne in large clusters, are of waxy whiteness and unsurpassed fragrance. More beautiful than most of the high-priced Lilies. An extra choice garden flower which we cannot too strongly recommend. Also a fine pot plant. Fine flowering bulbs, 20 cents each; three for 50 cents.

AMARYLLIS JOHNSONII.

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late winter or early spring, bearing large flowers of intense crimson with a delicate white feather in each petal. It is most superb. Price, 30 cents each.

AMARYLLIS EQUESTRE.

Valuable for house, conservatory or garden. The flowers are a bright salmon pink, with a distinct snow-white blotch at the base of petals. After blooming season, withhold the water and allow the bulb to dry, then put it in some cool dry place for a season of rest. Price, 15 cents each.

HYACINTHUS CANDICANS.

This is unlike our spring blooming Hyacinths. Its leaves are deep green, fleshy, resembling some of the Yuccas. The flowers are white, in handsome, pendulous bells arranged on pyramidal spikes, often reaching the height of five feet or more in strong plants. A strong bulb will give from two to three flower spikes and these produce from thirty to fifty flowers. The plants come into bloom in July and bloom constantly until October. Price, 10 cents each; three for 25 cents.

HOLLYHOCKS.

Few hardy plants combine as many good qualities or lend themselves as readily to varied uses as the Hollyhock. For planting in rows or groups on the lawn or interspersed among shrubbery they are invaluable. The flowers, which are as elegant in shape as a Camelia, form perfect rosettes of the most lovely shades of crimson, yellow, pink, orange, white, etc. They require a deep, rich soil, and will repay in quantity and beauty of bloom any extra care. We offer a fine assortment in separate colors. Price, 10 cents each; three different kinds for 25 cents.

HARDY DOUBLE ENGLISH VIOLET.

This Violet is entirely hardy, perfectly double, a deep violet-purple color and most deliciously fragrant. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. Will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the hardy Double English Violet. Price, 15 cents each; two for 25 cents.

DIELYTRA SPECTABILIS - Bleeding Heart.

These pretty spring bloomers, with their graceful, drooping sprays of heart-shaped pink and white flowers, are very ornamental and bloom freely early in the season. The plants being hardy, increase in size and bloom from year to year, and should have a place in every garden. Price, 20 cents each.

DIELYTRA SPECTABILIS.

LEMON LILY OF SIBERIA.

The Beautiful Lemon Lily of Siberia.

Homocallis Flava.

One of the most beautiful and desirable Lilies in existence. You plant it once and you have it for all time. Fine Double Herbaceous PAEONIES.

We herewith offer some of the newest and most beautiful varieties in cultivation. These noble plants are exceedingly effective; the profusion and duration of bloom, combined with handsome massive foliage, accommodating habits, and easy culture, render them one of the most popular hardy plants grown for lawn and garden decoration, or for mingling with Shrubs, or amongst herbaceous plants in borders and wild gardens. The flowers are large, massive, perfect in outline and most beautiful. (See cut.) We offer fine named kinds, distinct colors, 30 cents each.

The Latest Novelties in Hardy Plants, *Rudbeckia Laciniata*, Fl. Pl., "Golden Glow."

A hardy perennial plant growing from four to six feet high, branching freely, and bearing by the hundreds, on long, graceful stems, exquisite double blossoms of the brightest golden color and as large as Cactus Dahlias. It grows vigorously and throws up strong, branching flower stems six feet high, laden with sheaves of golden blossoms as large as fair Chrysanthemums, and all having an elegant, graceful appearance, without any of the stiffness in habit or blossom peculiar to sunflowers. As cut flowers the blossoms last well. In fine, we unhesitatingly regard it as the most desirable introduction among hardy perennials of late years. It is the most effective flowering plant for August and September in cultivation. Price, strong plants, which will bloom freely this season, 10 cents each; three for 25 cents.

New *Hydrangea Paniculata Grandiflora*

This is one of the most hardy shrubs in cultivation. It attains a height of three or four feet, and is perfectly hardy in all parts of the country. The flowers are white, borne in immense pyramidal panicles nearly a foot in length. It commences flowering in July and continues until November. The plant should be cut back every spring at least one-half of the last season's growth, as the flowers are borne on new wood and are much finer when the plants are treated in this way. This is the finest flowering shrub for cemetery planting we know of. See illustration. Price, 15 cents each.

HARDY HYDRANGAEA PANICULATA GRANDIFLORA.

PAEONY.

CLEMATIS PANICULATA.

One of the most beautiful of our hardy-flowering vines. The flowers are pure white, and are borne in great panicles or clusters of bloom, fairly covering the plant, so that it is a mass or sheet of fleecy white. These clusters are borne on long slender stems, which stand out boldly from between the glossy green leaves, and the gentlest breeze causes wavy crests of white to flow gently over their surface. The fragrance is delicious, resembling the English Hawthorn blossoms, and is so subtle and penetrating that a large plant in bloom will fill the air with fragrance. It begins to bloom late in August or early in September, at a time when most other hardy climbers are out of bloom, an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from fifteen to twenty feet, and spreading out when trained to wires or string, and we can unhesitatingly say that it is, in our opinion, the most valuable among hardy climbing vines. Price, 10 cents each.

New Hardy Hibiscus, "Crimson Eye."

This magnificent Hibiscus is unequaled among hardy plants for gorgeous beauty. It is a robust grower, with dark red stems and foliage. The flowers are immense in size, often measuring twenty inches in circumference. The color is of the purest white, with a large spot of deep velvety-crimson in the center of each flower. It is a striking combination of color, and one that must be seen to be fully appreciated. It will succeed anywhere, and is perfectly hardy. Price of good, strong roots, to bloom this year, 15 cents each; three for 35 cents.
